# Network technologies

— — —

MPLS applications (L2/L3 VPN)

Security

Automation/Python integration

# Tech Stack

— — —

Network standards/protocols knowledge

Programming skills (Python is preferable)

# Why Australia, not Canada/US/%country\_name%

— — —

## Pros

- Climate
- High life standard – good salaries, free medical insurance(for citizens/PRs)
- Social programs for children and elder ones

## Cons

- Unfriendly flora/fauna in rural areas
- Migrants/refugees
- Tolerance
- Property prices

# Howto Australia

— — —

- Work visa, later converted on company-nominated visa
- Skilled migration
- Student visa(arguable)
